

Dr. Techy says,
“Hormone profiles
make it easy.”

HORMONE TESTING AND TREATMENT IS A NEW FRONTIER IN PAIN MANAGEMENT

Just why are pain practitioners joining the movement? Several bits of knowledge and technology have recently come together to make this possible.

- **Long-term pain relief requires adequate hormone activity**
 - **Severe, chronic pain may cause profound hormone abnormalities**
 - **Opioids may suppress hormone production**
 - **Hormone profiles are now readily available from commercial labs**
 - **Neurohormones are now recognized as a therapeutic class**
 - **Clinical benefits of hormone administration are obvious**
- ✓ **Opioid sparing**
 - ✓ **Physiologic & mental stabilization**
 - ✓ **Reduction in baseline pain and pain flares**

Dr. Hormone says,
“Hormones control the
pain relief and healing
systems in our bodies.”
